

**W2901038N**

Instruction Guide

**Due to Valeo Production changes, the following must be done.**

When this 6 lever style Valeo clutch is used to replace a 3 lever/diaphragm Valeo clutch, the PTO bearing, carrier, and mounting bolts must also be updated.

The new 6 lever style clutch utilizes a lower adjustment on the PTO levers, in turn making the old PTO carrier too short to properly depress the levers.

	<b>Source</b>	<b>Updated number</b>
Bearing	Hy-Capacity	8512202
Mounting bolt	Hy-Capacity	10-1.25x100MM
Carrier	OEM	72093636
